NEW YORK, Oct. 12—Having lived through the infantile paralysis and strike stages and the wrist watch epoch, now it is—yes, it is, muffs for men that we are about to be let in for. Yes, sir, cute little muffs, some of ermine, some of raccoon and some of er—er—skunk will be worn by men addicted to reading "What Well Dressed Men Are Wearing."

George Arliss, the actor, promises that he will soon appear in a muff. It was several weeks ago that some decreed of of fashions told the world the winter would be marked by muffs for men. And now they are on sale in several holly-toity haberdasheries. The men who haberdash to the Broadway Beau Brummels feel certain that the innovation will prove popular.

Toney, the famous Times Square pickpocket, is thrilled by the news. "I will make the work of us dips much easier," he said. With the coming of the muffs there will be no more walking sticks on Broadway. It is predicted. For one cannot carry one's cane when one's hands are concealed in circles of fur.

Bohemians are recovering from the Rogue's hall given in Webster street near Greenwich village. The first event of the season furnished about all the snap the laws of state permit.

All the free-thinking high brows wore in costumes. What the costumes lacked were supplied by nature and nature in many instances all snatched up with paint. As one Bohemian said after looking over the assemblage: "Gee, ain't nature grand?"

Where an abbreviated lace curtain failed to protect its wearer from pneumonia or a prosaic policeman, the red old paint sufficed. The mercury climbed steadily with each new arrival. There was everything present from goose girl to goose-flesh and a pleasant time was had by all.

Don Marquis, the sweet singer of the Sun, has just published a book of very good verse. Interviewed on the subject, he says: "Publishing a book of verses is like dropping a rose petal down the Grand Canyon and listening for the echo."

It was on Fifth avenue. The man was well dressed and cultured. He crossed the street as he passed a motor car a wee Pom, all perfumed up, snapped at him. He struck the dog and the lady was indignant. A crowd gathered. The man made a speech. He said: "I love dogs, but I love people more. I struck at the dog. I'm spontaneous self-defense and perhaps I should not have done it. It was a bit rude. But I think that has been a pent up dislike I had had

brought out by the amount of money that is spent on these fashionable animals when so many people are hungry. Madam, I apologize." And the crowd was with him.

It is time for New York to be aroused again against the spread of the drug habit. A man who knows told me the other day that the wives of three prominent business men were recently taken in a neighboring state and placed in a sanitarium on account of their fondness for opium smoking. The daughter of a well known automobile man was sent to Kansas City the other day a physical wreck from the use of cocaine. Her father hopes to have the desire eradicated and her strength built up at the Temple of Health, where the system of healing is a combination of all the best ideas in the various schools of medicine. The man who knows declares that many of the afternoon tea rooms are now being made a rendezvous for rich women who have fallen under the sway of narcotics.

### SULPHUR

Will Soon Have to Be Applied to the Soil in the State of Ohio.

ST. CLAIRSVILLE, O., Oct. 12.—Much interest has been aroused in the coal fields of eastern Ohio by the announcement of J. W. Ames, chemist of the Ohio agricultural experiment station, that sulphur will soon have to be applied to the soil in this state, just as is done with fertilizer. He claims that sulphur increases the crop production. Water drained from mines in this locality is heavy badly handicapped because of low drain. At present no use is made of this water, but plans are being discussed for the establishment of plants for the purpose of extracting the sulphur.

In an effort to keep the Germans from crossing the Vistula, several hundred women aided the Russian soldiers to dig trenches.

### SAYS HOT WATER WASHES POISONS FROM THE LIVER

Everyone should drink hot water with phosphate in it, before breakfast.

To feel as fine as the proverbial fiddle, we must keep the liver washed clean, almost every morning, to prevent its sponge-like pores from clogging with indigestible material, sour bile and poisonous toxins, says a noted physician.

If you get headaches, it is your liver. If you catch cold easily, it's your liver. If you wake up with a bad taste, furrowed tongue, nasty breath or stomach becomes rank, it's your liver. Sallow skin, muddy complexion, watery eyes all denote liver uncleanness. Your liver is the most important, also the most abused and neglected organ of the body. Few know its function or how to release the dammed-up body waste, bile and toxins. Most folks resort to violent calomel, which is a dangerous, salivating chemical which can only be used occasionally because it accumulates in the tissues, also attacks the bones.

Every man or woman, sick or well, should drink each morning before breakfast, a glass of hot water with a teaspoonful of limestone phosphate in it, to wash from the liver and bowels the previous day's indigestible material, the poisons, sour bile and toxins; thus cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach.

Limestone phosphate does not restrict the diet like calomel, because it cannot salivate, for it is harmless and you can eat anything afterwards. It is inexpensive and almost tasteless, and any pharmacist will sell you a quarter pound, which is sufficient for a demonstration of how hot water and limestone phosphate cleans, stimulates and freshens the liver, keeping you feeling fit day in and day out.—Advertisement.
